

Multiple seating system of 2 to 4 units with varnished beech wood or polished sheet aluminium backrest.

The seat area is configured in a single continuous block framed by polished and anodized aluminium sections and with a long black synthetic leather upholstered cushion. The bench legs and side armrests are in polished and anodized cast aluminium. The backrests may optionally have a completely upholstered front section. The armrests may optionally have varnished wood or upholstered covers, to match the backrests.

The models designed by Estudiferrer strike a delicate balance between an avantgarde design concept and the functionality, ergonomics and top features of the various models, which are a result of the creativity of the designer Jordi Ferrer. The line of seats is configured in a single bench equipped with a long cushion that is framed by polished aluminium profiles.
