

*Within the DOMO range, the CORONA series meets the needs of the segment of high-end tables for executive and board meetings.*

*Within the DOMO range, the CORONA series is a response to the needs of the table segment for meetings and board meetings with an executive character.*

*The 25 mm thick table top is in veneer beech wood and varnished in natural or wengé tones. Its modular system enables the model to be adapted to individual needs, as well as enabling a variety of modifications and combinations to be made in order to adapt to each particular situation.*

*The structure is made up of elegant polished aluminium corner brackets and 50 mm Ø tube feet with a chrome or painted finish, equipped with levelling blocks.*
