

*Compact system of counters and fixed or swivel seats for canteens, bars or restaurants in general. Its functional design optimises the use of effective space for users and simplifies the maintenance of facilities. The seats, from the DIVA series, manufactured in polypropylene, are generous and comfortable.*

*4-seat module with fixed or swivel seats.*

*Seats with a polypropylene monoshell from the DIVA series.*

*800x1200 mm table top in 18 mm thick birch wood veneer and polypropylene laminate, suitable for extreme conditions of use (exteriors, intensive use, public areas). White (RAL 9010) or grey (RAL 7001) table top, with varnished edges. Steel tube frame finished in epoxy paint. Anodized and textured cast aluminium legs. The series model incorporates a rack between the perforated anodized sheet aluminium seats, matching the legs. It is optionally supplied with a conventional laminated table top (40 mm beech wood edges).*
