

Sober and elegant lines based on the quality and excellence of the materials used in its manufacture.

Varnished beech wood seat and polished aluminium frame with chrome-plated steel feet.

The simplicity and elegance of the design enables optimum integration in offices, waiting rooms, meeting rooms or reception areas with demanding requirements in terms of customisation and prestige.

Series of chairs with armrests with a wide varnished shaped beech wood seat over a polished aluminium structure.

The feet are manufactured in chrome steel tube.

The armrests are manufactured in cast aluminium, with shiny polished finish.
